

Hermann Oak® Bridle Leather

We worked with Hermann Oak® to develop this leather for manufacturing tack, leather halters, bridles, holsters and more! This very versatile leather does not feature as many oils and tallows as the “English” bridle, but it works well for moulding, stamping and embossing. It also makes superior horse halters. Most colors can be oiled to bring out a richer look. We have used and sold thousands of these sides and love their quality and yield. A very firm and well set-out leather. All colors and weights are in-stock for your immediate shipment. TR selection is priced per square foot.
