Best Quality Apron Splits on the Market!

Our quality apron splits are ideal for making farrier, sawmill and steelworker aprons that stand up to heavy-duty use.

Pearl Gray Apron Splits

Most people who buy this leather are producing farrier aprons. However, this soft, durable and consistent split is also great for making aprons for steel workers and saw mill workers. They are also sometimes referred to as mule hides in the western industry. We have used this leather in our factory for years to make our farrier aprons and have found them to be the best available. We offer these in two cuts to meet your needs — double bends for large cuts and single bends for smaller cuts. Whether you need large or small quantities of these pearl gray apron splits, we have them at a great price. They are sitting on the shelf ready for immediate shipment. TR selection is priced per square foot.

Features

- ▶ Chrome tanned apron splits are soft, durable and consistent in weight.
- ▶ Very nice pearl gray color.

10-1100DB, 10-1100SGL

Ideal for sawmill, farrier and steelworker aprons.
