

Sharpening Accessories

Industrial Buffing and Sharpening Kit

Designed to give the professional harness-maker and leatherworker everything needed to sharpen almost any knife or tool

- ▶ Polishes most types of metals including brass, stainless steel and other ferrous and non-ferrous metals.
- ▶ Includes black emery cake, brown tripoli cake, white rouge cake and red rouge cake – the compounds you need for sharpening almost any knife or tool.
- ▶ Three buffing wheels including Circle Sewn Cotton Muslin, Loose Plied Cotton Muslin and Sisal/Cloth Combination are 6" in diameter with a 1" face and bushings to fit 1/2", 5/8", 3/4" or 1" spindle shafts.
- ▶ Comes complete with instructions.
- ▶ All items available separately at right.

65-2700

Circle Sewn Muslin Wheel

Solid buff face stays firm as wheel rotates against work surface

- ▶ Great for polishing hardware and knife blades or tools.
- ▶ Measures 6" in diameter with 1" face.

65-2720

Loose Plied Cotton Muslin Wheel

Gives you flexibility when buffing contoured or recessed areas

- ▶ Measures 6" in diameter with 1" face.

65-2721

Sisal/Cloth Combination Wheel

Used for coarse cutting

- ▶ Great for use with 65-2730 Black Emery Cake below to remove rust on old tools.
- ▶ Measures 6" in diameter with 1" face.

65-2722

Black Emery Cake

Coarse cutting grade for dubbing of sharp edges as well as removing rust, scale, weld stains, tarnish, blemishes, light pits, scratch marks and sooty deposits

- ▶ Great for cleaning rusty tools.
- ▶ 16 oz. bar.

65-2730

Brown Tripoli Cake

Universal grade for buffing and brightening copper, aluminum, brass, zinc, pewter, bronze, plastic, hard rubber, animal horn, wood and painted surfaces

- ▶ 16 oz. bar.

65-2731

White Rouge Cake

Great for buffing stainless steel, nickel, chrome, brass, iron and lightly pitted or oxidized metallic surfaces

- ▶ Ideal for hardware and tool blades.
- ▶ 20 oz. bar.

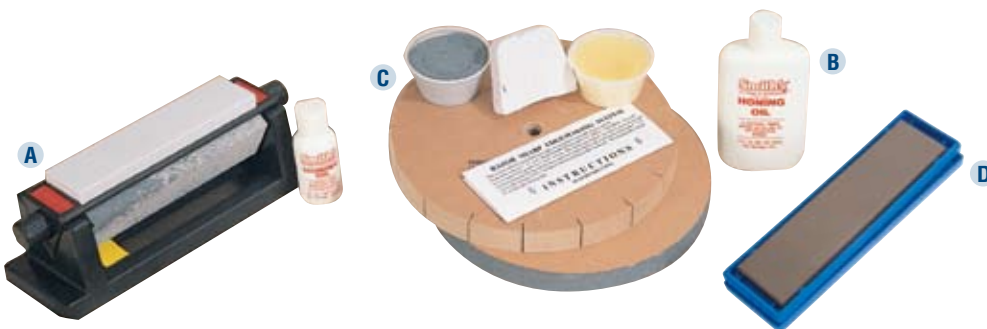

65-2732

Red Rouge Cake

Fine particle, abrasive polishing compound gives a high luster

- ▶ Great for polishing wood, silver, sterling and precious metals.
- ▶ Excellent for rebuffering after using the other grades to obtain a secondary, highly reflective luster.
- ▶ Best compound for final finish of knife and cutting tool edges.
- ▶ 20 oz. bar.

65-2733

A Tri-Hone Sharpening System

Knobs offer easy stone rotation

- ▶ One piece molded base has a v-trough to catch oil drippings.
- ▶ Comes with three 1-5/8" x 6" Arkansas stones in different grits.
- ▶ Comes complete with sharpening angle guide, honing oil and sharpening instructions.

65-2705

B Honing Oil

A must for lubricating Arkansas stones

- ▶ 4 oz.

65-2710

C Razor Sharp Edgemaking System

Polished razor-sharp edges in seconds!

- ▶ Ideal for knives, scissors, edgers and splitter blades.
- ▶ Comes with two 8" wheels that fit 8" bench grinders.
- ▶ One wheel is coated with silicone carbide. Extra grit and grease to recondition wheels included.
- ▶ Use second wheel with jeweler's rouge to polish.
- ▶ Comes with instructions.

65-2709

D Ceramic Bench Stone

Ideal for sharpening swivel knives

- ▶ No oil is required for sharpening.
- ▶ Measures 2" x 8".

65-2707

A must for all leatherworkers!

Wheel

Compound

Buffing Wheel and Compound

Wheel and compound will buff any knife or tool to a very sharp edge

- ▶ Great for touch-ups between sharpenings.
- ▶ Wheel can be used on any grinder and measures 6" in diameter x 1" deep with a 1/2" center hole for attachment to grinder.
- ▶ Apply compound sparingly to wheel – removes rust, scale, carbon and stains.
- ▶ Restores bright, shiny luster quickly.

65-2932 Wheel

65-2938 Compound, 4 oz.
