Pre-Sharpened Steel Clicker Dies Made To

You can count on Weaver Leather for quality made, pre-sharpened steel clicker dies that are constructed for maximum dependability. From your initial consultation to receiving your finished dies, our skilled die maker is here to help you every step of the way.

ACCURATE...

All pre-sharpened steel clicker dies from Weaver are guaranteed to meet your specifications or your money back. To ensure the accuracy of your die, please submit a pattern in actual size made from poster board. All slots, tubes, notches and stabs should be included on your pattern.

KNOWLEDGEABLE...

As a manufacturer of quality leather products, we have over 37 years of experience using and repairing dies. This experience has given us the knowledge it takes to make quality dies that perform well in a variety of manufacturing applications. We've seen the qualities that make a good, dependable die and we've seen the weaknesses that make a die unreliable. This knowledge helps us foresee any potential problems and take steps to ensure your die performs well.

FAST...

You'll receive prompt and timely personalized service with Weaver. Our experienced die maker will personally speak with you and provide a custom quote within 24 hours of receiving your pattern. We can accept a faxed copy of your pattern at 800-693-2837 for quotation purposes only. A pattern made to actual size must be mailed to us for the accurate completion of your project. We are committed to completing your project promptly and to your satisfaction.

QUALITY...

Our dies are carefully constructed from hardened, pre-sharpened steel for quality and dependability. We offer dies in 3 mm and 4 mm thicknesses in your choice of 3/4" or 1-1/4" heights. For maximum strength, we recommend our 1-1/4" height. Also available are double-edged, pre-sharpened steel dies in a 4 mm thickness and 3/4" height. All dies are stamped with the date of manufacture for your reference. Call for additional details.

SUPPORT...

We are dedicated to providing you with the best service before, during and after the sale. With over 37 years of experience repairing and resharpening dies in our own manufacturing facility, our die maker also offers these convenient services to you. Call for a quote.

CLICKING SERVICE ALSO AVAILABLE!

Our experienced leather craftspeople will use your die to click leather parts to meet your specifications. If your die is made by Weaver, it will be stamped with your name as well as the date of manufacture. See page 9 for additional details on our clicking service.

We also offer dies with ejection rubber to aid in the ejection of die cut parts.

All die edges are treated before painting to prevent paint from coming off onto your die cut pieces.

"Everyone in the die shop is committed to providing you with excellent service. From the time you call to receive a custom quote to after you receive your dies, we are here to help you every step of the way. With an attention to every detail and quality construction, our dies are guaranteed to meet your specifications or your money back. I invite you to call us with any questions you have."

Your Exact Specifications by Our Die Shop

Save \$50.00 on your order of clicker dies when you purchase our Master Tools Hand Operated Clicker on page 276.

"Weaver dies are the most precise, well made dies that I've ever used. Every die has been made exactly as the pattern that I sent them. The turn around time was also very good. I am completely satisfied with my dies from Weaver."
